A MINOR PROBLEM WAS ENCOUNTERED ON MSN 3201 DURING FUEL TRANSFER IN AIR REFUELING OPERATIONS BETWEEN KC-135 AND ARTICLE. FUEL TRANSFER INDICATIONS SHOWED ABNORMALLY SLOW TRANSFER BUT A THOROUGH CHECK OF BOTH SYSTEMS ON 6 DEC SHOWED KC-135 FUEL COUNTER TO BE IN ERROR. THIS IS NOT A PROBLEM DUE TO BACK UP INDICATION OF FUEL QUANTITY GAGE WHICH WILL GIVE ACCURATE READING OF AMOUNT OFF LOADED.

END OF MESSAGE
